

FLUTTER PRODUCT CASE STUDY

2days

Peer-to-peer rental marketplace

A production rental marketplace connecting owners and renters across Saudi Arabia through localized, map-aware mobile workflows.

ROLE & CONTRIBUTION

Flutter product engineering for discovery, listings, rental journeys, platform integrations, and a responsive bilingual experience.

PRODUCT CAPABILITIES

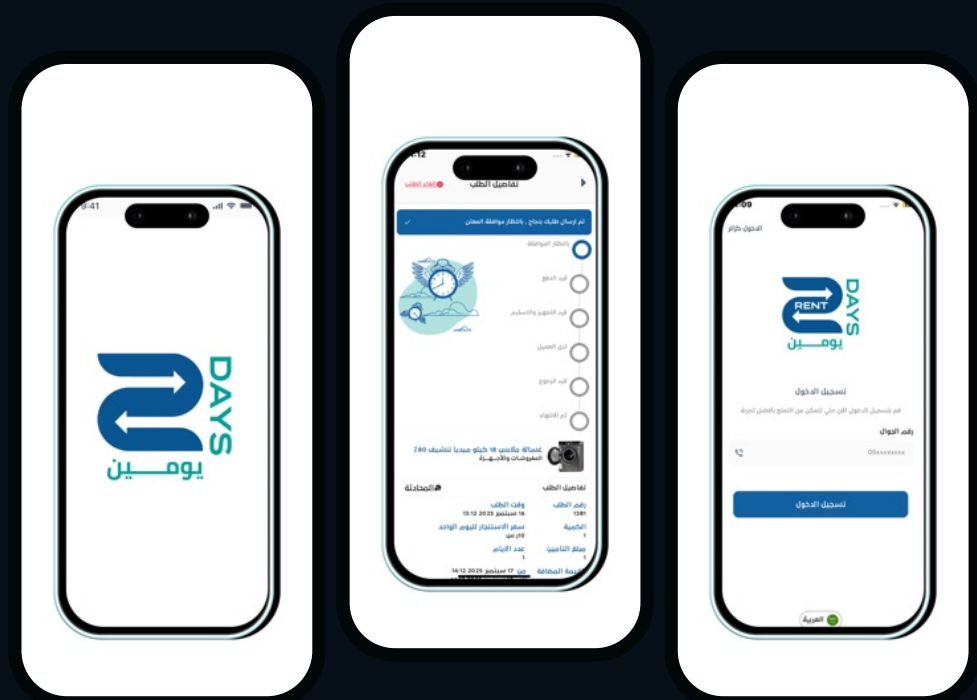

- Map-based discovery and distance
- Owner and renter marketplace flows
- Payments and electronic agreements
- Listings, categories, and localized UX
